

Uxbridge Public Schools Mission Statement

The mission of the Uxbridge Public Schools is to provide academically challenging programs to meet the diverse needs of all students in a safe, supportive environment and in partnership with families and the community, prepare students to become competent, creative and contributing citizens in a rapidly changing world.

Our beliefs are:

Learning is a life-long process and all students must be given full opportunity to reach their potential and to develop a love of learning.

Families are students' first and most influential teachers and are partners with the schools and the community in promoting learning. Effective communication is essential to this partnership.

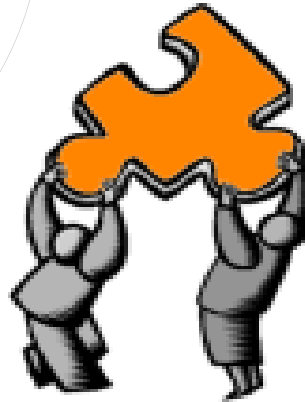

The major role of all members of the Uxbridge educational community is to prepare students to become responsible, ethical, and productive members of society.

The teacher's primary role is to teach.

Teacher's best help students to succeed by inspiring, challenging, and guiding them to reach their full potential. This is accomplished with the application of rigorous and comprehensive curriculum and appropriate instructional techniques, challenging students to discover and develop their strengths, talents, and interests for maximum achievement.

Student mastery of basic educational content and skills is essential for success in a rapidly changing world. These skills include the ability to solve problems, think analytically and creatively, attain fluency in all modes of communication, work effectively with others, and apply what has been learned to new situations.

The school climate promotes the social, emotional, and physical well being of the members of the school community. The climate must encourage respectful attitudes, provide a safe, positive, and nurturing environment, and encompass inclusive practices and sensibilities.

Uxbridge Public Schools

Parent / Family
Survey
Team Meeting
2009 - 2010

Tel: 508-278-8648

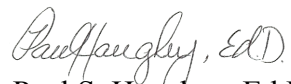

Dear Parent,

Open communication between home and school is the foundation of Uxbridge Public Schools. In accordance with Federal No Child Left Behind and Massachusetts Department of Education regulations, our partnership is of the utmost importance.

In a Team Evaluation, parents and educators work together to assess the skills and abilities that help a child to learn. In order to assist us in working with your child to help achieve the goals in the Individual Education Program, I would greatly appreciate your returning this survey with your response to the Team's recommendations.

Thank you, in advance, for your comments.

Regards,

Paul S. Haughey, Ed.D.
Director of Pupil Personnel
Services

1. My input was encouraged at my child's TEAM Meeting. **Yes No**

2. The process and criteria for special education eligibility were explained adequately to me. **Yes No**
