

Monthly Report – December 2007
Daniel Stefanilo, Superintendent

Overview of Activities for December 2007

- On December 5th, I was invited to partake in Celeste Lavigne's fifth grade class, at the Whittin School, to experience and observe her lesson on "Compacting the Curriculum". She was very enthusiastic and passionate about this lesson and wanted to this with the administration.
- Administrative Team Meetings: During the month of December, the Administrative Team was very busy discussing several topics. There were two meetings which included some of the following topics: Strategic Plan, Yellow Book, Professional Development Plans, Budget, Technology (ConnectEd), MSBA, School Choice, Administrative Evaluation Process, CPR Audit, Support Staff Seminar Review, Reading Program, Bus Issues, and Teaching and Reading Programs.
- General Meetings: This month the general meetings included a meeting with the School Committee, a meeting with staff and personnel to discuss school programs, a meeting with the DPW to discuss the Taft playground, and several personnel related meetings.

It has been a very productive and rewarding first half of the school year. I know everyone on staff will continue with their positive attitude and I wish everyone continued success in the months to follow.

Administrator,
Daniel J. Stefanilo
