

**Uxbridge High School
September 2008 Report**

Superintendent/Principal

Team/Administration

Over the summer and into the start of school year, the Administrative Team at the High School has been successfully working together. We have come together and have determined how to best serve the needs of the high school students and the staff.

Units A, B, C, D contracts are nearing completion and our goal is that they will be signed within the next couple of weeks.

Technology

The new computer lab at the High School is up and running. On a daily basis, teachers have been scheduling their classroom time to make use of this new lab. So far, the feedback has been positive.

Facilities/Maintenance

The SBA will be coming to visit soon. In addition, John Higgins, Ernie, and myself will be producing a video explaining the Feasibility Study.

The driveway at the Whitin School will be worked on October 9 and October 10.

We have begun our recycling program. Recycling bins have been distributed to all teachers, office support personnel, and designated areas within the building.

General Operations/Safety

The district's October 1st reports are in process (student enrollment figures) and you will be forwarded this information upon completion.
