

## **Uxbridge High School December 2008 Report**

This will be a very short report due to the December vacation.

I have had several meetings with Jane Sousa and Kristen Lavery (parent) concerning a new business proposal for the 18-22 year old program. This proposal relates to a paper shredding business which would be housed at 15 Mendon Street. We would purchase an industrial paper shredder and solicit businesses in town and municipal services for this service.

### **Meetings**

Administrative meetings were held twice this month to discuss budget freeze, plans for Curriculum Half-Day, Gifted and Talented program, Technology Day, and ASCD Professional Development Online Courses. Throughout the month, I have met with students and parents on a regular basis to address programs and discipline. I have met with staff members to discuss union related issues, sick bank requests, and personnel concerns. In addition, I have conducted staff evaluations. On a weekly basis, I have met with the administrative staff in the high school to discuss school building concerns. Lastley, I have held my Superintendent Advisory Council meeting, attended sporting events, and holiday performances.
